

*Community -  
Share knowledge,  
provide advice and  
meet your Mentor*

*Up-to-date news -  
Who is doing what  
and what's happening  
where you are*

*DRIVER Support website -  
Repositories in Europe:  
everything you ever  
wanted to know*

To organise and build a virtual,  
European-scale network of existing  
institutional repositories

*Technical advice -  
What works, how it  
works and what to  
do if it doesn't*

To assess and implement  
state-of-the-art technology to manage  
the repositories as one large scale  
virtual content resource

To assess and implement a number of  
fundamental user services

*DRIVER technology -  
Enhanced search, to  
find what you need*

To identify, implement and promote a  
relevant set of standards

To prepare future expansion and  
upgrade the digital repository  
infrastructure across Europe and to  
ensure the widest possible user  
involvement

*Stakeholders -  
What's in it for you*
